

THE CELARITIS BRAND

Celaritis provides natural and effective relief for people with arthritis and joint pain. The active ingredient is celadrin, which has performed well in clinical trials.

Already popular in the US, it is now available in the UK in as a tablet or cream, and most consumers buy both for maximum pain relief; many are repeat buyers.

The list works well for health campaigns as well as general mail order, charity, finance and the grey market.

CELARITIS

Celaritis is a tablet and cream that provides relief of arthritis pain, and helps improve mobility (www.celaritis.com).
