

THE DETAILS

Medical Comfort Insoles are professionally designed shoe inserts engineered to help the feet and ankles stay in alignment with the rest of the body. They are lightweight, flexible and vented for comfort.

The list has been recruited through direct mail campaigns, catalogue inserts and product despatch inserts as well as specialist magazines.

It responds well to health campaigns, mobility, finance and fashion offerings.

MEDICAL COMFORT INSOLES BUYERS

Medical comfort insoles are designed to relieve pain and improve functionality for people with foot, toe and ankle issues.
